Deadline: February 12, 2018
carisa.ramming@okstate.edu

Immerse yourself in the history, culture, and technology of France! On this trip you will gain an understanding of France's past, present, and future as you travel to Marseille, Lyon, and the city of light - Paris. We will visit both historical monuments and some of France's leading technological and engineering companies. From marine engineering in the port city to the inner workings of the Eiffel tower, this trip covers it all! Some other possible side trips will be Point du Gard, Nimes, Normandy, Versailles. Visits to Engineering companies will be arranged. Watch for more information!

*Architecture students may have an opportunity for a Department scholarship.

Due date is February 12, 2018

Itinerary

- May 17—20: Marseille
- May 20—24: Lyon
- May 24—30: Paris
- May 31: Return home or continue on personal travel

keith.teague@okstate.edu

Deadline: February 12, 2018

The history, beauty, and cultural heritage of Japan are only equaled by its state of the art engineering and technology! Students will visit the Takenaka R & D Institute, Sony World Headquarters and the National Institute of Advanced Industrial Science and Technology in and around Tokyo while exploring this world-class city. In the Kyoto area, you will visit traditional shrines and temples, Himeji Castle and Mitsubishi Heavy Industries. In Nagoya you will visit Toyota, all while enjoying the food and cultural heritage of Japan. Special cultural experiences include Hiroshima Peace Memorial Park, Miyajima Island, Koyasan, and Nara.

Itinerary

- May 16—Arrival Tokyo Narita International Airport
- May 17—Takenaka R & D Institute
- May 18—Sony World Headquarters/Sony Square
- May 19—Kyoto
- May 20—Hiroshima and Miyajima Island
- May 21—Mount Koya (Koyasan)
- May 22—Nara
- May 23—Mitsubishi Heavy Industries
- May 24 - Tokyo
- May 25—AIST Tsukuba
- May 26/27 - Tokyo/Departure
