III Design Guidelines

**i. Foreword**

This plan was developed for Oklahoma State University at the direction of the University President, Dr. David Schmidly. It is designed to create a road map for the next two decades during which significant development of the campus is expected. The 2005 Strategic Plan developed by the Office of the President is the basis for the plan. Considerable input from the campus faculty, student and staff was equally important. At the end of this document is an outline of an implementation process that will keep the plan relevant and usable throughout the period it addresses.
