Initial Development Plan

6.0 Plan Phasing & Scheduling

6.1 Introduction of the Initial Development Plan

The planning process was significantly impacted by the number and size of the facilities that were already at inception when intensive planning began. Because these facilities would be constructed within the next five years, locations needed to be determined within a short period; far shorter than the planning process.

It was determined that a Five-Year Plan would be created to place the imminent projects and that it would be developed in such a way

as to facilitate the 20-Year Plan. In March of 2006, the Initial Development was adopted by the OSU Board of Regents. It has been used as the basis for the location of construction projects shown in the accompanying chart.

6.1.1 Phase I (IDP) Plan Map

The accompanying map illustrates the projects anticipated in the IDP and the plan adopted by the OSU Regents in Spring of 2006. The IDP projects are being located as shown, even though the Long Range Plan has undergone considerable change.
