

# **Oklahoma State University Multimodal Transportation Terminal**

The Multimodal Transportation Terminal will be the central location for the OSU Transit System. The bus parking area is large enough to allow for easy access and turning of the buses. The terminal will contain a lobby waiting room, restroom, retail space, and administration offices for OSU Parking and Transit Services. Also included in this project is the Monroe Street Garage, a five-level parking facility.

## **Facility Fast Facts**

- 14,391 square feet (terminal)
- 382,907 square feet (parking garage)
- Cost - \$23 million  
(Funding: \$15.4 million Federal Transit Administration grant, remaining amount from bonds through the State Regents for Higher Education Master Lease program)
- Architects: Carl Walker Inc. of Frisco, Texas in association with Studio Architecture of Oklahoma City.
- Construction Manager: Lippert Brothers Inc. of Oklahoma City
- Terminal will serve as hub for OSU Transit including:
  - BOB (Big Orange Bus) -- connecting OSU-Stillwater and OSU-Tulsa
  - THE BUS Community Transit System
- Space for 10 buses
- Five-level parking garage
- 1,099 parking spaces
- Part of OSU Master Plan
- Completion date: August 2008
