#### Top computer crime fighters to speak at OSU-Tulsa

The OSU Center for Telecommunications and Network Security (CTANS) will host computer crime fighters Steven D. Shirley, executive director of the Department of Defense Cyber Crime Center, and Jim Christy, director of the Defense Cyber Crime Institute, on Tuesday, Oct. 31, at the OSU-Tulsa Auditorium. The pair is scheduled to speak from 9:50 – 11:45 a.m. as the keynotes for the quarterly meeting of InfraGard, which is free and open to the public. No registration or RSVP is required to attend. Among his many distinctive “firsts,” Shirley was the first case agent to investigate computer espionage and the first to use a stand alone personal computer for electronic surveillance. The afternoon portion of the meeting will be devoted to issues of voice over IP, a method for using the Internet and other networks to carry telephone traffic. An expert panel will field questions. For more information, contact CTANS at (405) 744-3000 or visit the website at <http://ctans.okstate.edu/>.
