Workspace Ergonomics

TRY IT BEFORE YOU BUY IT!

© 2000 Randy Glasbergen. www.glasbergen.com

Oklahoma ABLE Tech, in collaboration with OSU Environmental, Health and Safety, is now offering a **“TRY IT BEFORE YOU BUY IT”** program! Following an OSU EHS assessment, the staff at ABLE Tech can help you choose from an assortment of specially designed ergonomic items from our loan closet. These items are available on a short-term basis, usually four to six weeks, to help you make an informed decision regarding your ergonomic purchases.

"It's called Ergonomics."

Pictured above: Staff from the Spears School of Business commented, “The trial access to the chairs helped us to avoid unnecessary spending and helped to create a better work environment.”

Our loan closet features:

- Chairs
- Computer Accessories
- Ergo Mice and Keyboards
- Wireless Headsets
- Arm Rest/Foot Rest
- Specialized Software
